Test Results for Disinfection

Sample ID /Configuration	Type of Bacteria	Sample time (min)	Test No.	Control group			Tested group		Killing Rate K_t
				Initial Concentration V_0 (cfu/m ³)	Final Concentration V_1 (cfu/m ³)	Natural Decay N_1	Initial Concentration V_1 (cfu/m ³)	Final Concentration V_2 (cfu/m ³)	
S201020025-001 UVAJR216 230V 50Hz Speed level 10	Staphylococcus albus 8032	60	1	119000	114000	4.20%	120000	7	99.99%
			2	123000	118000	4.07%	118000	7	99.99%
			3	116000	112000	3.45%	112000	7	99.99%
			Average result:						99.99%

99.9% INSTANT DISINFECTION

- Ozone free UVC 253.7nm (efficient and safe)
- Killing air borne bacteria & germ
- Filtering PM2.5 and dust

AIR CHANGE PER HOUR MAX. 720m³

- ✓ The air purifier will automatically power off when fall over to well protect the environment and ensure human safety.

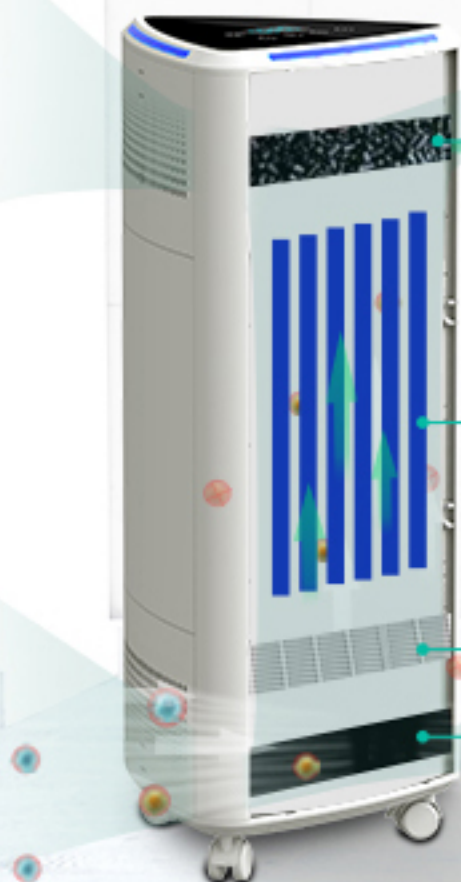

COMPLETE AIR PURIFICATION WITH 4 STAGE FILTRATION

4 **Activated Carbon** to absorb odour for ultimate purification

3 **UVC Tube** to disinfect bacteria and germs

2 **True HEPA** to filter PM2.5

1 **Pre-filter** to capture dust particles

Model	UVAIR216 EC	Power consumption	450W
Type	UV Tube	Voltage	AC 100~240V,50/60Hz
Power	36Wx6	Current	4.9A
Life time	9000hrs	Housing Material	anti-UV ABS & aluminium
Wave length	253.7nm	Color finish	White or as customized
Disinfection duration/area	In max fan speed up to 720m³/h	Mounting	Mobile placement
Application	Household,Medical,Commercial or Industrial places,including hall,shopping mall, office,hospital,gym,entertainment place,theme park,hotel,broadcasting house,theatre,stadium,workshop,etc.
